Page 19, line 3, ADD a new Finding of Fact No. 42:

42. On February 24, 2015, SSVEC filed exceptions addressing Staff's analysis of its requested revision to Section 3.6.3 of the Service Conditions. The revision addresses what SSVEC sees as an ambiguity in A.A.C. R14-2-210(E) dealing with meter error corrections. SSVEC requests that the Commission approve its proposed revision instead of that proposed by Staff. We will adopt SSVEC's proposed revisions to Section 3.6.3, with the exception of 3.6.3(A), which shall read as follows:

"If the date of the meter error can be definitely fixed, SSVEC shall adjust the customer's billings back to that date. If the date of the meter error cannot be determined, adjustments to that customer's bills will be limited to three months for residential customers and six months for non-residential customers. No such limitations shall apply to overbilling. If the customer has been under-billed, SSVEC will allow the customer to repay the difference over an equal length of time that the under-billings occurred. The customer may be allowed to pay the back bill without late payment penalties, unless there is evidence of meter tampering or energy diversion."
